Morning at home; prepared a box full of supplies (paper, scissor, nails, hammer, pens, flags, rope, knife, etc) and dressed for the Montage festival - khaki pants, pink shirt & white tie, brown shoes. Borrowed card table from Gay Course and drove down - Henry & John were there and were setting up. barrels and boards in place; the canopy could not be erected because there are too many rocks. No matter. We set up and nothing, absolutely nothing happened - the <sup>CHSM</sup> stand and those of the Gay Aug Zoo, the Dunmore Civic Association and the Balloon vendor were too far out of the way; no one came by; the location was very very bad. DWP & HAD arrived. No music began. No one came to buy instant bingo or gamble (Henry was running a card game / board game called Polish poker) or buy our raffle tickets. I got very upset and quiet. No fire works began and ended. We "folded our tents" so to speak and went home. Very depressing. There was such a quantity of cars in the lot that no less than 1 1/2 hours <sup>passed</sup> before I even left Montage - arrived home at about 2 A.M. - tired and very upset. Somehow, I'm not sure how, but somehow I managed to fall asleep. What a horrible day.
